

Andrei John S. Sager

Frontend Software Developer

EXPERIENCE

Frontend Java/Web Developer

Accenture • Remote • Feb 2025–Apr 2025

- Acquired comprehensive expertise of Java and web development through online courses on Udemy.
- Designed and implemented dynamic user interfaces using HTML, CSS, and JavaScript, ensuring responsive and user-friendly designs.
- Enhanced database management skills by implementing relational database models for java and web applications.
- Integrated data structures with frontend components.
- Managed and logged work hours using Jibble, demonstrating effective time management and remote work discipline.

Frontend React Native Developer • — Nov 2023–Dec 2024

UERM MMC/ACE Medical • Remote • Feb 2025–Apr 2025

- Coordinated with Ace Medical Mandaluyong Center Laboratory and UERM MMC Quezon City Blood Banks to define app requirements, perform acceptance testing, and broaden recommendations.
- Collaborated with colleagues that **improved productivity by 44%** using **GitHub** and **Todoist** for project management, task management, automation, and integrations.
- Designed and developed 5 roles for each access level with their corresponding routes and permissions
- Organized 100+ screens based on relevance to roles and their routing
- Created 25+ reusable components including component wrappers
- Established a database and an API layer using Redux and Firebase for CRUD Operations
- Built report generation for daily, weekly, monthly, and yearly blood donations and requests on Firebase using batch increments.
